PROFESSIONAL PROFILE

Senior Product Designer with 7+ years shipping products across fintech, enterprise SaaS and consumer platforms. I turn regulated, complex flows into clear, accessible journeys and build tokenised design systems that help engineering ship faster. I prototype with AI, going from research to working, coded prototypes in days.

PROFESSIONAL EXPERIENCE

LEAD PRODUCT DESIGNER | TALSTRIKE

Feb 2024 – Present

Sports talent platform connecting athletes, scouts and fans.

- Led design from prototype to launch; reached 10K+ subscribers in year one.
- Turned research and stakeholder input into the V2 roadmap; V2 lifted sign-ups 85%.
- Designed AI-assisted athlete search and role-based accounts for four user types.
- Rebuilt the design system on Figma tokens and variables, automating dark mode.
- Mentored 4 designers through structured critique, speeding up engineering handoff.

PRODUCT DESIGNER (CONTRACT) | WOLLETTE

Dec 2023 – Feb 2024

Payments platform: responsive web redesign and rebrand.

- Redesigned the responsive website and brand; merchant partnerships doubled in 3 months.
- Lifted quarterly sign-ups 10% and organic search visibility 20%.
- Used 3D and motion to explain complex workflows; usability scores rose 25%.

SENIOR PRODUCT DESIGNER | ALSOIT

Jan 2022 – Dec 2023

Multi-tenant enterprise workspace, acquired by Appsalite.

- Designed core dashboards, org hierarchy and activity tracking during 3× valuation growth.
- Built and governed a tokenised Figma design system used across product squads.
- Set design principles and a WCAG-based accessibility standard for every product line.
- Mentored junior designers and created a video library of UX patterns.

UI/UX DESIGNER | SWIFTPOINT

May 2019 – Jan 2022

Cross-border payments and bills platform.

- Led product design as the platform expanded into 10 countries.
- Simplified multi-currency transfers into step-by-step flows using progressive disclosure.
- Ran research across markets and localised the interface for each.

SKILLS

Product design: Discovery, Interaction design, Prototyping, User research, Usability testing, Information architecture, A/B testing

Design systems: Tokenised systems, Figma variables, Light/dark theming, WCAG 2.2 AA, Inclusive design

AI workflow: Claude, Claude Code, Cursor, Figma AI, v0, AI research synthesis

Motion & 3D: After Effects, Blender, Cinema 4D, Micro-interactions

Front-end: HTML, CSS, JavaScript, React, Next.js, Git

EDUCATION & CERTIFICATIONS

- MSc Financial Technology — University of Bradford, UK
- BSc Accounting and Financial Technology — Delta State University, NG
- UX Master Certified (UXC #1063162) — Nielsen Norman Group
- UX Design Professional Certificate — Google
- Full-Stack Web Development — Microverse

HONOURS & AWARDS

- Featured design innovation — The Telegraph, for the Bradcoin app
- Global Trading Laureate — Bloomberg international trading competition
